MARBLEHEAD LIME COMPANY
A DIVISION OF GENERAL DYNAMICS CORPORATION

September 9, 1983

State of Utah
Department of Natural Resources
Division of Oil, Gas and Mining
4241 State Office Building
Salt Lake City, Utah 84114

Attention: Susan Linner

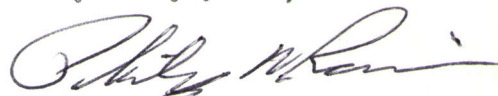

Dear Mrs. Linner:

To respond to your letter of July 20, 1983, for a commitment by our company to the three stipulations listed under paragraph 3:

- A. Upon determination of when we will be putting in the test plots, a review will be made on the nutrient value of the various mulch materials which would be available within the area. After these mulch materials have been evaluated, the rate of application and the mulch to be used will be determined. This information will be transmitted to the Division at least 60 days prior to the implementation of test plots.
- B. All information regarding the test plots will be submitted to the Division at least 90 days prior to final revegetation.
- C. Data will be transmitted to your office within the next couple of months in regards to the success rate of revegetation which has been done on the western slopes of the Lakeside Mountains.

With this letter I hope final approval to our Mining and Reclamation Plan can be reached at your September 22, 1983 meeting.

Very truly yours,

Philip N. Raines
Staff Assistant - Operations
